# Presentation of Collaboration Intents – Hainan 29<sup>th</sup> June 2019 Hainan University

---

Cooperation content between Italy and Hainan province (On the demand of Hainan)

Italian universities or research institutions are expected to set up special research institutes or research bases in Hainan, which will be the link and bridge between Italy and China(Hainan) to attract high-end talents from EU and countries along the "The Belt And Road". What's more, as an open scientific research base and industrialization base, that will become a connector to support the mutual benefit and common development of China (Hainan) and Italy.

Give full play to the advantages of the disciplines, specialties, talents and management of Italian universities; Develop key cooperation with the departments and disciplines of main universities in hainan province to help raise the level of university education in Hainan. Italian universities have world-leading professional advantages in music, dance, fine arts, sports (football, volleyball, swimming, etc.), art design, fashion design, cultural creativity and planning, etc. An all-round cooperation with relevant Italian universities is especially in need, which is to help improve the internationalization level of Hainan education.

Hainan professional technical institute hopes to collaborate with Italy jewelry design college, majoring in jewelry identification, jewelry design, jewelry processing, jewelry display and marketing center, etc.

Majors that will be in cooperation with other professional technical institute: animation design, handmade, hotel management, western food (Italian food, pizza, wine tasting, wine making, etc.).

The way of cooperation can be diversified:

- A. professional cooperation;
- B. Project cooperation;
- C. Course cooperation;
- D. cooperation in academic education;
- E. exchange of students, mutual recognition and cooperation of credits;
- F. teacher-student interaction;
- G. teacher training;
- H. cooperation of some departments;
- I. Government departments or enterprises invest and cooperate to establish a Chinese (Hainan) Italian college (major: art, sports, design) with a bachelor's degree or above.

Intents to collaborate with relevant schools and educational institutions in Italy to build Hainan international sports and art education pilot zone, omprehensively improve the international level of Hainan education, and build up China-Italy international youth cultural exchange platform. It reads as follows:

- 1) Italy is expected to organize teenager football coach team and be responsible for guiding and helping the training for hainan teenager football (Campus football, from primary school to junior high school, high school is the main content) and coaches and referees. Organize football competition, cultural activities, and football culture exchanges among teenagers of China and Italy, etc., Establish an influential teenager football communication platform;

2) Hold China-Italy international sports and art education summit forum;

3) Hold important cultural exchanges for teenagers such as China-Italy international art festival and sports festival.
